

Pricing

We believe all engineers should experience how metal 3D printing technology can improve the way they design and prototype functional parts. We have provided two flexible options for customers to utilize capex or opex to obtain their system:

1 Purchase Studio System for \$120,000¹

Includes:

- DM Studio Printer (add additional Printers for \$49,900 + tax)
 - DM Studio Debinder (add additional Debinders for \$9,900 + tax)
 - DM Studio Furnace (add additional Furnaces for \$59,900 + tax)
 - Consumable Starter Kit (media, gas, debinder fluid, effluent filters and build plates)
 - Installation and training by DM Sales Partner
 - Cloud-based software & updates (local cloud option available)
 - 1-year warranty and maintenance
-

2 Hardware-as-a-Service (HaaS)

Choose between the two

- \$0 down and \$4,000^{1,2}/month (+ applicable tax) for 36 months
- \$0 down and \$3,250^{1,2}/month (+ applicable tax) for 48 months

Includes:

- DM Studio Printer, Debinder and Furnace
- Consumable Starter Kit
- Installation and training by DM Sales Partner
- Cloud-based software & updates (local cloud option available)
- Warranty and maintenance for duration of service

Other HaaS terms:

- Annual renewals available after initial service period expires
 - Hardware can be purchased at end of service period for monthly fee x 12
 - At end of service period hardware can be returned for monthly fee x 3 (restocking)
-
